## Train Track brush

Just playing around with brush settings.  This is an Airbrush preset.  This one uses the Difference blend mode and takes advantage of the Airbrush's ability to build up paint.

The example was done with a foreground color of White:

**Options to explore:**

- Play with the brush settings and see how the result changes

**Installation instructions:**

Download the brush preset.  Place it in your **Presets** folder.  Use it with the Airbrush.
